Close your eyes and listen
Wherever you feel like going

The journey is the way and all a traveller needs to set out. It doesn't have to be a road. It is all about emotion and discovery, abandoning well-trodden paths and looking out for new ones. In a true journey there are no landmarks: you are your own guide, and what you bring along that continues to move you.

Reference series, so that your journey in music is magnificent

ADAMANTES V
KARIS III

Your stage, your orchestras

To be surrounded by music in one of the most prestigious theatres in the world.

Today it is your theatre, your stage and you are at its centre, immersed in the music.

You don't need to do anything. Just close your eyes and listen. Listen.

It is about sound vibrations; about purity.

It is the pure pleasure of perceiving every musical detail in a perfect reproduction of the soundstage as it appears before you.

Surrender to the emotion. Then open your eyes and look. Marvel at man's ingenuity, the carefully selected materials that take shape in harmonic proportions, delivering a natural listening experience.

They embody years of study, research, passion and creativity.

Artisan hands, visionary minds, high technology, manufacturing perfection down to the smallest detail.

It is the love of music and pure passion that drive us to give our best in everything we do.

And in the music you are now listening to, this perfection is present.

It is yours.

ADAMANTES V

Will power, inspiration, sensitivity. Nothing more is required.

In Adamantes V, the loud-speaker that best conveys the DIAPASON brand philosophy, the flare for design and love of music of its founder Alessandro Schiavi came together.

Ever since 1988, the year in which the first version went into full production, we have constantly worked to attain perfection in acoustic reproduction, to deliver a musical listening experience capable of resonating with our deepest emotions. And now we are here.

The multi-faceted shape of our “Adamantes” diamond grants optimal sound dispersion from the drivers into the listening environment, recreating the soundstage in an astoundingly holographic way: the loud-speaker disappears from the scene and it feels like we can touch the instruments and voices, perceiving their exact position within the orchestra.

Minutely calculated dimensions, accurate proportions, living and warm materials such as solid Canaletto walnut wood. Quality, efficiency, high technology.

Adamantes V is the perfect device for playing and listening to your music.

The Diapason Direct Drive technology, applied to the 17 cm woofer, was developed in collaboration with Norwegian Seas according to exclusive technical specifications. It allows the rear connectors to be directly wired to the driver without the use of a low-pass circuit. The results are clearly perceivable, in terms of speed, while listening to musicaly faithful reproductions of low frequencies.

A new high-thickness crossover printed circuit board has been designed for the 19 mm tweeter, whose mark of distinction is stage presence and the ability to convey the feeling of live music. The crossover has been specially designed with the fewest possible components and mounted directly on the rear connectors to obtain a very fast signal passage and a resulting sound that is as natural and realistic as possible.

REFERENCE SERIES ADAMANTES V

SPECIFICATIONS:

Frequency response: 38/20.000 Hz

Bass driver : Ø 170 mm Direct Drive polymetylpentene

Tweeter: Ø 19 mm treated silk soft dome

Efficiency: 91 dB/W/m

Freq. crossover: 4.600 Hz

Nominal impedance: 6 Ohm

Min impedance: 3,4 Ohm/200 Hz

Type: rear-ported reflex speaker

Finish: Canaletto walnut solid wood, Natural Wood finishing

Weight per speaker: 9,3 Kg

Dimensions (W x D x H): 246 x 398 x 380 mm

9,68 x 15,70 x 14,96 inch

Stand 2/A for Adamantes V, brushed stainless steel base & solid wood columns, 75 cm height

REFERENCE SERIES
KARIS III
A new musical experience

Creativity is never-ending. Like the love of beauty and passion for new challenges. Even as we stand before a result that gives us complete satisfaction, we long to feel that wonder again with a new project and a new creation.

Alessandro Schiavi has an original way of thinking and is capable of seeing things from unusual points of view: thus he gives life to new solutions and surprising achievements.

Karis III is a reference mini-monitor loud-speaker because it is able to transport you into the music, into the pure emotion of listening, it is all you need to experience the harmony of sound in all its nuances.

The solid Canaletto walnut staves have been assembled with an optimized process, making the cabinet even more stable and resonance-free: maximum performance in a product that also succeeds in captivating our sight and touch.

The faceted front and rear panels, the reduced size, the meticulously studied proportions, are the strengths of a device that guarantees unprecedented performance in terms of naturalness, detail and truthfulness of sound reproduction.

Perfect materials and innovative technological tools come together.

The new Diapason Direct Drive 11 cm woofer, exclusively produced by Seas with advanced construction procedures, guarantees excellent control and performance at low frequencies. Thanks to its ample surround, the 19mm silk tweeter, also manufactured by Seas, reproduces harmonics at high frequencies exceptionally well.

The new high-pass crossover circuit has a specially designed high-thickness circuit board made with as few components as possible and is mounted directly on the rear connectors, thus obtaining a very fast signal pass and a perfect delivery of sound to the listener.

REFERENCE SERIES KARIS III

⚙️ SPECIFICATIONS:

Frequency response: 60/20.000 Hz

Bass driver Ø: 110 mm Direct Drive polymetylpenten

Tweeter Ø: 19 mm treated silk soft dome

Efficiency: 87 dB/W/m

Freq. crossover: 3.000 Hz

Nominal impedance: 8 Ohm

Type: rear-ported reflex speaker

Finish: Canaletto walnut solid wood, Natural Wood finishing

Weight per speaker: 4,5 Kg

Dimensions: (W x D x H): 190x260x285 mm

7,48 x 10,23 x 11,22 inch

Stand 2/K for Karis III, brushed stainless steel base & solid wood columns, 75 cm height.
Also available 1/M black metal base&column stand, 75 cm height
